Ben Maughan, President, Maughn Music Inc.

Rivulet Media (stock symbol: BMSN) to Acquire Maughan Music Inc.

Expansion Adds Music Production Services for Feature Films, TV and Recording Artists.

(Gilbert, AZ)... Rivulet Media announces the acquisition of Maughan Music Inc. as part of the Rivulet family of companies, Maughan Music will expand our content creation into the development of original music for feature films, television, and up and coming artists.

In 2013, Rivulet Film's CEO Mike Witherill began working with Ben Maughan, a rising star in the music industry as a writer and producer, to co-write and co-compose for the original soundtrack for the multi-award winning feature film STUCK, starring Grammy award winner Ashanti, and Giancarlo Esposito who is best known for his role in Breaking Bad and Better Call Saul.

Ben, along with his brothers Jesse and Jed, will lead Maughan Music Inc. to create original music - from writing to production - for feature films and television, as well as the ability to manage and produce budding recording artists' in-studio and live performance productions. Together they have co-written and co-produced music for recording artist McKenna Breinholt, whose original music is available on Apple Music, YouTube and Spotify.

"The Maughan's are one of the best kept secrets in the music industry and the World has yet to see what they are capable of. The Maughan Music acquisition gives us the ability to produce world class music across many platforms while putting us in the position to write, produce and publish a growing library of music for other emerging artists," states Rivulet Media CEO Aaron Klusman.

"We are excited to offer a unique platform to create original music for not only Rivulet's films but other great filmmakers," shares Ben Maughan.
